

# Huddersfield Textiles Offers a **Paperless Solution** for Bespoke Tailoring World

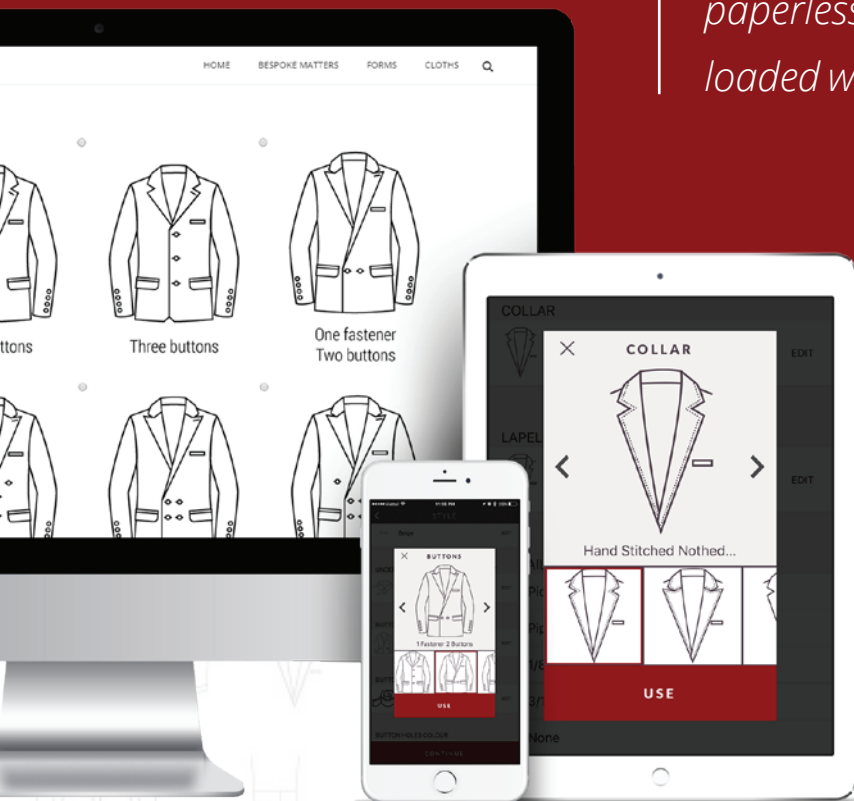

Huddersfield Suit CMT is now  
available on iOS app store

Riding the amazing momentum of tailors bringing their businesses into the digital age of Facebook marketing, better websites and amazing Instagram posts, we have committed to raising industry standards like no others have done before. By introducing our CMT app for tailors, we will make your order processing methods increasingly easier while enhancing your overall presentation to clients.

# Simplify Your Workload Now

*"Alongside our team in Silicon Valley, we created this tool to revolutionize the industry. As fabric suppliers, we felt compelled to find a solution for our customers who constantly complained about not being able to save data in an efficient way. This solution needed to be paperless, utilize mobile technology and come loaded with every kind of variable imaginable."*

**Jai Sachdev**  
Chief Operating Officer

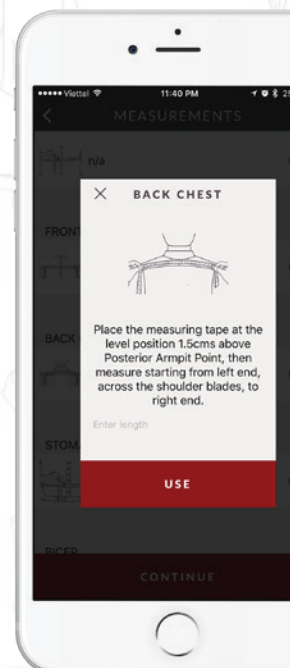

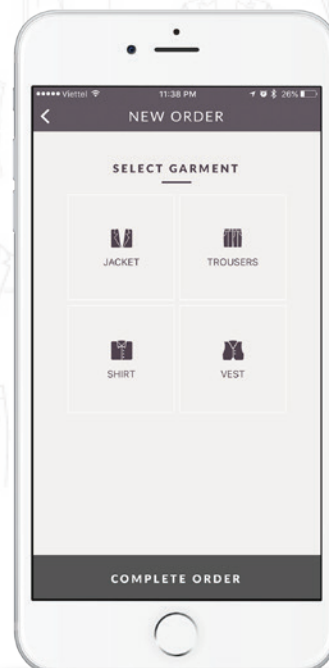

**\$29.99**

Per Month

*"The CMT app is going to remind us of how much we love our profession. With a decline in younger generations joining the tailoring industry, it's up to veterans like us to revitalize the trade by introducing modern concepts & advanced technology."*

**Derrick Robinson**  
Huddersfield U.S. Sales President

# What is CMT?

Cut

Make

Trim

To Help You  
Be More **Productive.**

*"This is why we have taken the first step to change everything from how you present to your clients to how you store your data."*
